

IATSE Local 8 Local in Philadelphia is extending our Online OSHA 10 General Industry Online Training until the end of September, and we are once again inviting All Members of District 4 to participate. With 7 more class dates available, Members who were too busy or were unable to get the time slot they wanted before now have another opportunity to participate and become OSAH 10 Certified.

This Training is FREE to all Members of any IA local and anyone working under an IA Contract. We are using the Zoom platform, which makes it easy for everyone to participate wherever they may be. The OSHA 10 GES Certification will never expire and is required to work in some cities or venues.

We Provide the same OSHA General Entertainment Safety Course the International offers; we use their material. The IATSE Training Trust Fund had just updated its OSHA 10 GES Presentations to reflect the recent changes made to the OSHA Standards, and the presentation is geared explicitly towards IATSE Members.

Register at www.iatse8.com/osh10. Check out the calendar at www.iatse8.com for the most up to date listings.
